

Steven Bui

Los Gatos, CA

(408)687-5765

stevenbui79@yahoo.com

Summary

Platform Cloud engineering leader with 30+ years of experience across DevOps and Infrastructure. Hands on experience building cloud-native platforms, CI/CD deployment, and infrastructure design across AWS and Alibaba Cloud services. Possesses versatile skills, capable of single-handedly delivering projects or providing team leadership. An individual who loves designing infrastructure and enjoys being challenged.

LANGUAGES AND TECHNOLOGIES

- **Proficient:** Python, C++, Kubernetes, Shell Scripting
- **Cloud Infrastructure:** Amazon Web Services, Alibaba Cloud Services, Openstack
- **Skills:** Scrum master, Cloud Infrastructure Design, all flavors of Linux OS

CERTIFICATIONS

- Alibaba Cloud Compute & Security Certified
- Alibaba Cloud Services Instructor for Alibaba Cloud USA

Experience

Principal Software Engineer | Director

Salesforce
Present

📍 San Francisco

August 2019 –

- Designed and implemented the migration of on-prem Mulesoft services to Salesforce multi-substrate cloud infrastructure (Hyperforce).
- Successfully migrated 75% of Mulesoft services to Hyperforce (Salesforce Infrastructure built on AWS) within a year.
- Defined technical roadmaps for public cloud-native architecture in collaboration with Alibaba Cloud services.
- Wrote 25+ Terraform modules and 20 scripts to deploy services to Alibaba Cloud
- Mentored junior engineers through pair-programming sessions and code reviews on Python/Golang modules for infrastructure automation, contributing to their promotion readiness while delivering production-grade features single-handedly.

Cloud Architect

Alibaba Cloud USA
2019

📍 San Mateo

August 2017 - August

- Spearheaded the US-based Solutions Architect team, covering customer engagements

across the US, Canada, and Latin America.

- Secured a **3-year, \$7M+** contract by leading the successful migration of a Fortune 500 financial information/analytics company to Alibaba Cloud.
- Created hands-on PoCs using Terraform and Python to validate cloud-native architectural roadmaps, including monitoring extensions (e.g., integrating with existing ELK/Splunk patterns) and automated testing suites for multi-cloud (AWS/Alibaba) compatibility.
- Maintained certifications as an Alibaba Cloud Compute & Security Certified professional and an Alibaba Cloud Services Instructor.

DevOps Engineer

Picarro
2019

Santa Clara

August 2017 - August

- Designed and led the implementation of automated CI/CD pipelines with Jenkins, resulting in a 40% reduction in deployment time.
- Managed, scaled, and ensured high availability (99.99%) for mission-critical production infrastructure across on-prem and private cloud environments using Chef.
- Migrated legacy systems to a modern, stable containerized architecture utilizing Docker, thereby improving resource utilization.

DevOps Architect

Huawei
February 2016

Santa Clara

March 2014 -

- Designed a hyper-scale network model using white-box 40Gb Edge-core switches with Pica8 OS.

DevOps Engineer

SS8 Networks

San Jose

August 2012 - December 2013

- Recruited by the VP of Engineering (Cary Fitzgerald) as an architect to overhaul outdated processes, tools, and workflows at SS8 Networks.

IT Manager

Hitachi Communications Technologies of America

Santa Clara

January 2008 - March 2011

- Administered two global sites in Santa Clara, CA and Shanghai, China, leading the support team.

Mobile Yahoo! Engineer

Yahoo! Inc.

Sunnyvale

October 2006 - January 2008

- Managed and maintained server environments for Alpha, Beta, and Gamma stages.

SCM Engineer

Magma-da (now Synopsys)

Santa Clara

July 2004 - October 2006

- Full administration and knowledge of Platform LSF.

Systems Engineer/Technologist

Sun Microsystems

Menlo Park

August 2003 - May 2004

- Provided support to the VSP CTO office by assisting with various prototyping and proof-of-concept testing.

Software Engineer

Cisco Systems

San Jose

September 2000 - May 2003

- Administered and supported Rational ClearCase for both internal and external Cisco Systems clients.

Awards and Recognition

- Alibaba Cloud Compute & Security Certified
- Alibaba Cloud Services Instructor for Alibaba Cloud USA
- Education

Bachelor's degree in Software Engineering

Santa Clara University

📍 Santa Clara

June 2001

- Completed BSE in 3 years
